

Project *Whitehorse Road, Croydon – Japanese Knotweed Removal*

Developer *Oakwood Group*

PBA's Role PBA Solutions provided Japanese knotweed removal and remediation services to excavate and take off site material impacted with Japanese knotweed. Work was completed in 3 days on site and took 4 weeks from initial contact with client until completion.
The rhizome (roots) of this stand of Japanese knotweed penetrated 7 metres deep into the soil profile. PBA provided a fixed price solution that allowed for full excavation even when the rhizome exceeded the expected depth of 2-3 metres.

Value Circa £14,000

Date Completed Summer 2012

Japanese Knotweed Removal and Treatment - Mortgage Compliance - Insurance Backed Guarantees - Root Barrier Sales and Installation
